

Washington, DC – Today, Congressman Bruce Braley (IA-01) released the following statement:

“Words cannot adequately express my shock and grief over the death of John Adler. John was a good friend and a great public servant. I know that everyone who had the privilege of working with him and serving with him – both in his home state of New Jersey and in Washington, D.C. – feels this tremendous loss. My heart goes out his family and loved ones – my thoughts and prayers are with them during this terribly difficult time.”
